

Sajjad Farajollahi

AI-Augmented WordPress Product Builder

Commercial Plugins | RTL & Persian UX | Release Engineering | Creator of CMRP

Qom, Iran | sajjad.farajollahi.dev@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL PROFILE

AI-augmented WordPress product builder focused on commercial plugins, RTL and Persian user experiences, product architecture, testing, and disciplined release workflows. Creator of Cafe Menu RTL Pro (CMRP), currently undergoing private commercial-readiness validation. Uses AI to accelerate implementation and analysis while retaining responsibility for requirements, product decisions, architectural constraints, testing, validation, release management, and customer outcomes.

PRODUCT & EXPERIENCE

Creator & WordPress Product Builder | Independent Product Development Jun 2026-Present

Cafe Menu RTL Pro (CMRP) | Self-employed

- Developing an RTL-first WordPress restaurant-menu platform for cafes, restaurants, bakeries, and similar businesses.
- Directs product requirements, architectural constraints, RTL and Persian UX decisions, implementation, testing, validation, documentation, and release packaging.
- Built flexible multi-size pricing, registry-driven appearance controls, preview/frontend design parity, and reproducible validation workflows.
- Current stage: private commercial audit; public demonstrations, documentation, and selected code will follow approval.

Private English Tutor | Independent

Jan 2026-Present

- Provides one-to-one English instruction to two private students.
